| Gender | Mixed |
| Tuition | AED 28,912 |
| Students | 1,603 |
| Students per teacher | 21.1 |
| Students of determination | 0% |
| Capacity utilisation | 48% |
| National share | 9.9% |

## Position inside this set

- International School Of Choueifat - Mushrif: No extreme figure in this set

## Method and sources

Source: Abu Dhabi open data, ADSDI layer 212. The capture date is the snapshot date on the rows in this view. Good or better counts schools whose judgement is Good, Very Good, or Outstanding. Schools with no judgement sit outside that percentage. Students per teaching-staff member, the share of students of determination, capacity utilisation, and national-student share are derived by Nahjly. National students are the boys national field plus the girls national field. The extract does not call that sum Emirati, and the truncated female teaching-staff national field is not used. Size bands are Nahjly groupings, not an ADEK classification. ADEK's October 2025 totals are a separate published statement and are not added into these charts. This file does not name a best school, a top school, or a winner.
