NAHJLY

Comparison

Up to four schools from the same dated extract. A marker names the highest or lowest figure in this set.

Capture date 1 January 2025 · 1 schools

1	4	1 January 2025	0
Schools in this set	Limit	Capture date	Markers

Recorded tuition

A lower figure is a lower fee in this set, not a recommendation.

Japanese School — AED 32,967

Students

Japanese School — 121

The same fields, side by side

Field	Japanese School
Judgement	Very Good
Capture date	1 January 2025
Curriculum	Private Japanese
District	Al Bateen
Gender	Mixed
Tuition	AED 32,967
Students	121
Students per teacher	4.5
Students of determination	0%
Capacity utilisation	32.3%
National share	31.4%

Position inside this set

- Japanese School: No extreme figure in this set

Method and sources

Source: Abu Dhabi open data, ADSDI layer 212. The capture date is the snapshot date on the rows in this view. Good or better counts schools whose judgement is Good, Very Good, or Outstanding. Schools with no judgement sit outside that percentage. Students per teaching-staff member, the share of students of determination, capacity utilisation, and national-student share are derived by Nahjly. National students are the boys national field plus the girls national field. The extract does not call that sum Emirati, and the truncated female teaching-staff national field is not used. Size bands are Nahjly groupings, not an ADEK classification. ADEK's October 2025 totals are a separate published statement and are not added into these charts. This file does not name a best school, a top school, or a winner.
